

Refiner revision

For a permanently optimal
production process

Benefit from our
many years of experience
in refiner service

SCHNEIDER
ANLAGENTECHNIK

Our refiner service includes the overhaul of the roller cylinders, gears and hydraulics.

The condition of all wearing parts will be assessed and replaced if necessary.

The probability of machine failure and associated repairs is greatly reduced.

www.bsa-schneider.de

We would be happy to advise you regarding further additional packages:

- Optimized dry running protection
- New water cooling unit for the roller cylinders
- Complete product room cladded with stainless steel panel, etc.

We bring your refiners to the latest state of the art.

Also overhauls of other machines, e.g. conches, mixers, etc. are realized by our experienced service team in a perfect way.
